

## Appendix 1. Examples of Plastic Bags and Films with Incorrect Recyclable Labels Distributed in California in 2021

### Common Label Errors on Plastic Bags and Films

- 1) **“100% Recyclable” or other forms of “Recyclable.”** Use of the word “recyclable” in any form is not correct because plastic bags are not widely accepted in curbside bins in California or across the U.S. Mixed post-consumer plastic film waste has minimal-to-no market demand or current processing. This text should be eliminated from the bag.
- 2) **“Can be recycled at a participating store” or “Store Dropoff.”** There is not a comprehensive store takeback system in California. California law (Cal. Bus. & Prof. Code § 17580 and Cal. Pub. Res. Code § 42355.5) and the federal Green Guides (16 C.F.R. § 260.2) require substantiation for recycling for claims such as this. It is our opinion that this claim is not provable. This text should be eliminated from the bag.
- 3) **Large chasing arrows recycling symbol.** The FTC Green Guides only allow small resin identification codes on non-recyclable plastic products in inconspicuous locations.<sup>1</sup> We recommend changing the chasing arrows to a solid triangle and minimizing the size to make it inconspicuous.

These labels will likely cause consumers to place the bag in curbside recycle bins.
